ROEL R. HINGABAY

has successfully completed the online Specialization

Microsoft Data Analysis with SQL, Excel & Power BI

This certificate recognizes successful completion of the Microsoft Data Analysis with SQL, Excel & Power BI Specialization. The learner demonstrated foundational skills in querying relational databases using SQL, analyzing and organizing datasets in Microsoft Excel, and creating interactive dashboards and visual reports with Power BI. Through hands-on exercises and applied activities, the learner gained experience extracting, analyzing, and presenting data to generate insights and support data-informed decision-making using widely adopted Microsoft data tools.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
